THE MIRACLE OF GOD

Produced By – God

Now Showing at Body Theatre - Tax Free

In spite of having abundance of knowledge as well as money and other materials resources, most of the people, surprisingly are neither happy nor conscious in their lives. Disharmony with oneself leads to disturbances with others. Among different relations like, husbands, wives, children, friends, employers, employees even with mothers and fathers, also a disturbed relationship is resulting in dubious and disturbing ramifications. The reason is very simple, little or virtually no real knowledge about God and His role in our lives.

Our human body is the first and biggest miracle of **life energy**, called God. Somehow, we were produced by Godly process, but we have been given intellect to **direct** our lives ourselves.

This film called life, should have been an action packed comedy. Inadvertently it has become violence oriented horror movie ending in a tragedy.

The proof is that, after the departure of the soul from the physical body, many prayers are conducted, so that the departed soul may rest in peace.

Of course, these prayers can be effective, but only when, the departed soul carries with it the preamble for peace.

While indulging in all kinds of cleverness, cheating, and other nefarious activities and hobnobbing with evil tendencies, during our stay on earth planet, how can soul remain pure? And when the soul is not pure, how peace is possible, in this world or in after life?

**Time is running fast but we are running faster than the time.
Let us pause and pray for PEACE + PURITY**

**.....to make life film
a Diamond Jubilee.**

REAL RICHNESS RARELY REALISED

A common notion is that richness means plenty of money and this misbelief has led the decline in the happiness quotient & quantum of consciousness.

No doubt, money plays a vital role in establishment of various dimensions of richness, but the real richness is realized by most of the people only at the time of death of physical body.

So, to be happy while living as well as leaving (dying) we ought to expand the horizon of our understanding about the Real Richness of Life -

Spiritual Richness - Soul consciousness for this and after life.

Emotional Richness - Loving ourselves and others.

Family Richness - Ego free, mutually respecting bonds.

Intellectual Richness - Exploring knowledge of this world.

Physical Richness - Having a robust physical body.

Ancestral Richness - Protecting the sacred heritage of ancestors.

Social Richness - Selfishness free, equanimity with others.

Financial Richness - Money Accumulation.

All these blend and bind together to create

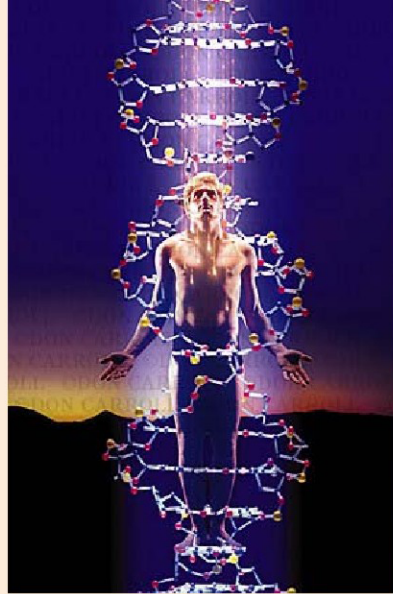

LIFE RICHNESS

So, let us pause and ponder, about our preconceived definitions of richness. Indeed a different perspective will obviously lead to a more pronounced life called.....

REAL RICHNESS - REWARD OF ROMANCING WITH LIFE

PAGE OF SAGE

Beyond Age

D.N.A.

SEEKER - WHAT IS GOD ?

SAGE - GOD IS ONE OF THE NAMES GIVEN TO THE LIFE ENERGY WHICH IS THE CAUSE BEHIND ALL THE VISIBLE ACTIVITIES.

SEEKER - WHAT IS D.N.A. ?

SAGE - In scientific Terminology – De-oxyribose Nucleic Acid, it is said to contain the seeds of all impulsions and compulsions, which govern the human life. In the Indian spiritual language SANSKARS, are akin to D.N.A. which regulate our actions, and create impressions on the soul, which has to bear the consequences of actions before and even after shedding the physical body.

SEEKER - WHAT ARE DEEDS ?

SAGE - These are the actions performed by humans under the influence of D.N.A. or sanskars, or character. All the deeds have their origin in thoughts and feelings, which ultimately take a physical shape in the form of events and circumstances. This is also called fate or luck or fortune.

Thus logically and realistically we are the co-creators of our fate.

SEEKER - HOW D.N.A. OR SANSKARS CO-CREATE THE FATE WITH GOD (CONSCIOUSNESS) ?

SAGE - PHYSICAL BODY IS THE MANIFESTATION OF ASTRAL OR SPIRITUAL BODY. THIS SUBTLE, SPIRITUAL BODY HAS GOT TRAITS OR QUALITIES, WHICH IS COMMONLY CALLED CHARACTER. IT IS THE CHARACTER WHICH NAVIGATES OUR ACTIONS IN THE FORM OF DECISIONS. THE DECISIONS DESIGN OUR FUTURE. THE SUPER CONSCIOUSNESS OR GOD OR CREATOR FITS OUR DECISIONS AND ACTION INTO ITS FRAMEWORK OF LAWS, THUS OUR DECISIONS DESIGN OUR DESTINY IN ACCORDANCE WITH THE LAW OF ACTION AND REACTION. SO IT IS SO SIMPLE TO DEVISE OUR OWN DESTINY.

DIVINITY

DEEDS

DESTINY

SEEKER - PEOPLE WORSHIP GOD, BUT ACT AGAINST THE GOD. WHY?

SAGE - Ignorant people separate the Creator from His creation. Thus while blindly worshipping God, unwittingly they defy the laws of God, thus damaging themselves as well as others.

They try to become richer by making others poorer,

They try to become happy by harming others.

This is inviting trial and tribulations for one and all.

SEEKER - HOW TO CHANGE?

SAGE - Only one thing to do. Its very simple,

REMEMBER THE CONSEQUENCES OF EVERY SMALL ACTION

TO CHANGE THE DESTINY - CHANGE THE DESTINATION.

In Sabarmati Ashram, outside the room, Mahatma Gandhi had written that

वर्तमान में हम जो करेंगे

भविष्य में वैसा ही हमारे साथ होगा

Here, होगा is the result of करेंगे। So we have full controll over our future via present.

WHEN OTHERS ARE CREMATED WHAT WE HAVE CREATED ?

As there is an old, and Gold saying :-

**When the vision is low
How bulbs of wisdom can glow ?**

To verify this, one can attend any funeral, where the dead boy is cremated or reduced to ashes. One can easily assess the low level of sensitivity and sensibility by the substance of their conversations. Some one has left the body for-ever, and people surrounding the dead body are found to be exchanging like -

Ist Person - *Aur jee, kya haal hain?*

IIInd Person- *Bas yaar, kat rahi hai?*

Ist Person- *Aur business kaisa chal raha hai.*

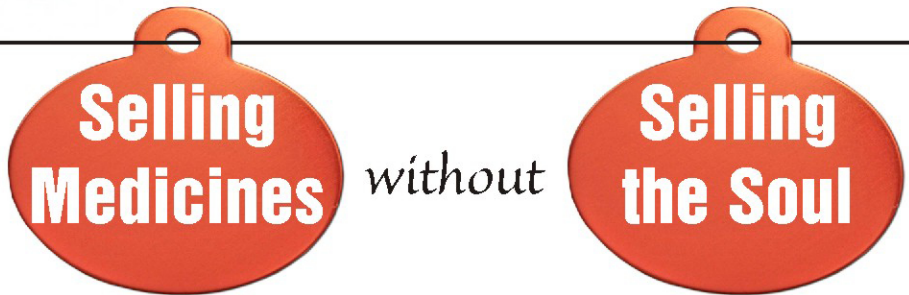

IIInd Person- *Kuch down hai yarr, competition bahut ho gaya hai.*

Imagine, the level of lower consciousness, that transmit lower wave length Energy in the atmosphere, then these very low energy vibrations come back in our lives in the form of hardships. Since people do not bother to study and learn the laws of life, they don't understand that they are digging their own graves by being formal and pretending with the deceased person and his/her family members.

By being non-sympathetic and non-compassionate, we are ourselves, harming our *sanskars* and D.N.A. in scientific terminology. That is the time for prayers for true peace of not only departed soul, but also for all others associated. These prayers convert grief and gloom into gratitude and goodwill. This must be remembered that with each passing day, we too are continuously inching towards the same dooms day.

This dooms day can be changed to Divine day by being more realistic, kind hearted and genuine. Then God's Blessings start appearing in our lives.

Let us be sincere and serious when someone has gone forever

Most of the people wonder, while a few thunder also, that how and why in MISSION HAPPINESS the business of medicines has been mixed and blended with spirituality or divinity. Initially most of the professional associates of Mission Happiness, harboured the notion that this organisation is very shrewd in using the name of God as a marketing ploy. But after so many years of consistent adherence to the divine laws while producing and promoting the medicinal products, it is becoming clear to the medical profession, as well as society at large that it is a prudent way, not a clever one, to use the name of God in business activities. The difference between prudence and shrewdness is that of wisdom.

By being compassionate for poor patients, higher quality at lower prices, without offering any temptations is the easiest way of surviving and thriving in this competitive segment of pharmaceuticals. Of course it requires God's Grace and a lion heart to be away from the rat-race of competitive greed.

MISSION HAPPINESS products are produced and promoted :

1. FOR HAPPINESS OF PATIENT'S MIND ALONGWITH WELLNESS OF PATIENT'S BODY.
2. FOR ENHANCING GODWILL AND GOODWILL AMONG DOCTORS AND CHEMISTS.
3. FOR EARNING *PUNYAS*, FOR THIS AS WELL AS AFTER LIFE.

**by seeking prescriptions, not on the basis of visits by field force,
but on the virtues of pure and pious products.**

Thus divine laws are transparent & transparency brings triumph sooner or later.
